1.3. Details of the supplier of the safety data sheet

Resco Products (UK) Limited
Newbold Works, Melbourne Road, Lount
LE65 1PL Ashby-de-la-Zouch - England
Adrian.Hudson@Rescoproducts.com

1.4. Emergency telephone number

Emergency number: +44 (0) 1530 222694

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

This product does not meet the criteria for classification as hazardous as defined in the Regulation EC 1272/2008 and in Directive 67/548/EC

Adverse physicochemical, human health and environmental effects

Depending on the type of handling and use (e.g. grinding, drying), airborne respirable crystalline silica may be generated. Prolonged and/or massive inhalation of respirable crystalline silica dust may cause lung fibrosis, commonly referred to as silicosis. Principal symptoms of silicosis are cough and breathlessness. Occupational exposure to respirable crystalline silica dust should be monitored and controlled.

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

<table>

| Hazard statements (CLP)| H315 - Causes skin irritation  
|                        | H319 - Causes serious eye irritation. |
| Precautionary statements (CLP) | P260 - Do not breathe dust  
|                           | P280 - Wear eye protection, respiratory protection, protective gloves 
|                           | P265 - In case of inadequate ventilation wear respiratory protection. 
|                           | P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing 
|                           | P332 - If skin irritation occurs: Get medical advice/attention 
|                           | P337+P313 - If eye irritation persists: Get medical advice/attention 
|                           | P501 – Dispose of Contents/Containers in accordance with local regulations. |

2.3. Other hazards

This product is an inorganic substance and does not meet the criteria for PBT or vPvB in accordance with Annex XIII of REACH

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general
Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation
Remove person to fresh air and keep comfortable for breathing. Allow victim to breathe fresh air. Allow the victim to rest.

First-aid measures after skin contact
Wash with plenty of soap and water.

First-aid measures after eye contact
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Rinse eyes with water as a precaution.

First-aid measures after ingestion
Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Call a poison centre or a doctor if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation
Danger of damage to health by prolonged exposure through inhalation.

Symptoms/injuries after skin contact
Causes skin irritation.

Symptoms/injuries after eye contact
Causes eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media
Use extinguishing media appropriate for surrounding fire.

Unsafe extinguishing media
No unsuitable extinguishing media known.

5.2. Special hazards arising from the substance or mixture
Fire hazard
Not flammable.

Explosion hazard
None.

Hazardous decomposition products in case of fire
None.

5.3. Advice for firefighters
Firefighting instructions
Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.

Protection during firefighting
Do not enter fire area without proper protective equipment, including respiratory protection. Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Emergency procedures
Do not breathe dust. Avoid airborne dust generation, wear personal protective equipment in compliance with national legislation.

6.1.2. For emergency responders
Protective equipment
Do not attempt to take action without suitable protective equipment. Equip clean-up crew with proper protection. For further information refer to section 8: "Exposure controls/personal protection".

Emergency procedures
Ventilate area.

6.2. Environmental precautions
Avoid release to the environment. Prevent entry to sewers and public waters.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up
Avoid dry sweeping and use water spraying or vacuum cleaning systems to prevent airborne dust generation. Wear personal protective equipment in compliance with national legislation.

Other information
Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections
See Heading 8. Exposure controls and personal protection. For further information refer to section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling
Ensure good ventilation of the work station. Wear personal protective equipment. Do not handle until all safety precautions have been read and understood. Avoid raised dust. Avoid contact with skin and eyes. Do not breathe dust.

Hygiene measures
Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions
Store this product in a dry location where it can be protected from the elements.

Incompatible products
Strong bases. Strong acids.

Incompatible materials
Strong acids, bases.
7.3. Specific end use(s)
If you require advice on specific uses, please contact your supplier or check the Good Practice Guide referred to in section 16.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Note (1): Germany has no OEL for quartz. Employers are obliged to minimize exposure as much as possible, and to follow certain protective measures.

8.2. Exposure controls

Appropriate engineering controls: Ensure good ventilation of the work station.
Personal protective equipment: Pictogram(s) indicating the obligation of wearing personal protective equipment (PPE).
Hand protection: Wear protective gloves
Eye protection: Chemical goggles or safety glasses.
Skin and body protection: Wear suitable protective clothing
Respiratory protection: Wear appropriate mask
Environmental exposure controls: Avoid release to the environment.
Other information: Do not eat, drink or smoke during use. Avoid Generation of dust when cutting / grinding installed product.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Solid
Appearance: Granular mixture.
Colour: Grey.
Odour: Earthy Odor.
Odour threshold: Not applicable
pH: No data available
Relative evaporation rate (butylacetate=1): Not applicable
Relative evaporation rate (ether=1): Not applicable
Melting point: > 1650 °C
Freezing point: Not applicable
Boiling point: Not applicable
Flash point: Not applicable
Critical temperature: Not applicable
Auto-ignition temperature: Not applicable
Decomposition temperature: No data available
Flammability (solid, gas): None
Vapour pressure: Not Applicable
Vapour pressure at 50 °C: Not Applicable
Critical pressure: Not applicable
Relative vapour density at 20 °C: No data available
Relative density: No data available
Solubility: Water: Slight
Log Pow: No data available
Viscosity, kinematic: Not applicable
Viscosity, dynamic: Not Applicable
Explosive properties: No data available
Oxidising properties: No data available
Explosive limits: Not applicable

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Hydraulic setting.

10.2. Chemical stability
Not established.

10.3. Possibility of hazardous reactions
Not established.

10.4. Conditions to avoid
Avoid dust formation.

10.5. Incompatible materials
Strong acids. Strong bases.

10.6. Hazardous decomposition products
None.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity: Not classified (Based on available data, the classification criteria are not met)
Skin corrosion/irritation: Not classified (Based on available data, the classification criteria are not met)
Serious eye damage/irritation: Not classified (Based on available data, the classification criteria are not met)
Respiratory or skin sensitisation: Not classified (Based on available data, the classification criteria are not met)
Germ cell mutagenicity: Not classified (Based on available data, the classification criteria are not met)
Carcinogenicity: Not classified (Based on available data, the classification criteria are not met)
Reproductive toxicity: Not classified (Based on available data, the classification criteria are not met)
Specific target organ toxicity (single exposure): Not classified (Based on available data, the classification criteria are not met)
Specific target organ toxicity (repeated exposure): Not classified (Based on available data, the classification criteria are not met)
Aspiration hazard: Not classified (Based on available data, the classification criteria are not met)
Potential adverse human health effects and symptoms: Not classified (Based on available data, the classification criteria are not met)

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general: The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.

12.2. Persistence and degradability
Quikturn 60PC (Mixture)
Persistence and degradability: Not established.
Quartz (14808-60-7)
Persistence and degradability: Biodegradability: not applicable.
Biodegradable oxygen demand (BOD): Not applicable
Chemical oxygen demand (COD): Not applicable
TbOD: Not applicable
BOD (% of ThOD): Not applicable
Cristobalite (14464-46-1)
Persistence and degradability: Biodegradability: not applicable.
Biodegradable oxygen demand (BOD): Not applicable
Chemical oxygen demand (COD): Not applicable
TbOD: Not applicable
## Quikturn 60PC
### Safety Data Sheet

according to Regulation (EC) No. 453/2010

### 12.3. Bioaccumulative potential

### 12.4. Mobility in soil

No additional information available.

### 12.5. Results of PBT and vPvB assessment

No additional information available.

### 12.6. Other adverse effects

Additional information: Avoid release to the environment.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations.

Ecology - waste materials: Avoid release to the environment.

### SECTION 14: Transport information

In accordance with ADR / RID / IMDG / IATA / ADN

#### 14.1. UN number

Not regulated for transport.

#### 14.2. UN proper shipping name

<table>

#### 14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

Quikturn 60PC is not on the REACH Candidate List.

Quikturn 60PC contains no substances with Annex XVII restrictions.

Quikturn 60PC does not contain any substance on the REACH candidate list.
Contains no REACH Annex XIV substances

15.1.2. National regulations
No additional information available

15.2. Chemical safety assessment
No chemical assessment has been carried out

SECTION 16: Other information

Other information: This product is a proprietary mixture of unique ingredients & is supplied in a premixed dry condition. Avoid generation of airborne dust when handling. Dust generated by grinding/cutting installed product should be treated as classified STOT RE 2. This MSDS is prepared to alert Customers and other users to the various components of the product and their relative quantity and toxicity in the product as provided. The user must review his/her own circumstances and then determine what is required to establish a safe working environment.

Insofar as materials not manufactured or supplied by Resco Products that are used in conjunction with, or instead of Resco Products materials, it is the responsibility of the customer himself to obtain, from the manufacturer or supplier, all technical data and other properties relating to these and other materials and to obtain all necessary information relating to them. No liability can be accepted in respect of the use of Resco Products materials in conjunction with materials from another supplier.

Workers must be informed of the presence of crystalline silica and trained in the proper use and handling of this product as required under applicable regulations.

Social Dialogue on Respirable Crystalline Silica

A multi-sectoral social dialogue agreement on Workers Health Protection through the Good Handling and Use of Crystalline Silica and Products Containing it was signed on 25 April 2006. This autonomous agreement, which received the European Commission’s financial support, is based on a Good Practices Guide. The requirements of the Agreement came into force on 25 October 2006. The Agreement was published in the Official Journal of the European Union (2006/C 279/02). The text of the Agreement and its annexes, including the Good Practices Guide, are available from http://www.nepsi.eu and provide useful information and guidance for the handling of products containing respirable crystalline silica. Literature references are available on request from EUROSIL, the European Association of Industrial Silica Producers.

Prolonged and/or massive exposure to respirable crystalline silica containing dust may cause silicosis, a nodular pulmonary fibrosis caused by deposition in the lungs of fine respirable particles of crystalline silica.

In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans (human carcinogen category 1). However it pointed out that not all industrial circumstances, nor all crystalline silica types, were to be incriminated. (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.)

SDS EU (REACH Annex II)
Although reasonable care has been taken in the preparation of the information contained herein, Resco extends no warranties, makes no representation and assumes no responsibility as to the accuracy or suitability of such information for application to purchaser’s intended purposes or for consequences of its use.
