SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
   - Product form: Mixture
   - Product name: R-MAX C
   - CAS No: Mixture
   - Product code: Mix 19.010
   - Product group: Finished Goods
   - Other means of identification: Alumina-Silicate Low Cement Castable

1.2. Relevant identified uses of the substance or mixture and uses advised against
   - Industrial/Professional use spec: Industrial
   - Use of the substance/mixture: Refractory

1.3. Details of the supplier of the safety data sheet
   - Resco Products (UK) Limited
   - Newbold Works, Melbourne Road, Lount
   - LE65 1PL Ashby-de-la-Zouch - England
   - Adrian.Hudson@Rescoproducts.com

1.4. Emergency telephone number
   - Emergency number: + 44 (0) 1530 222694

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
   - This product does not meet the criteria for classification as hazardous as defined in the Regulation EC 1272/2008 and in Directive 67/548/EC
   - Adverse physicochemical, human health and environmental effects
     Depending on the type of handling and use (e.g. grinding, drying), airborne respirable crystalline silica may be generated. Prolonged and/or massive inhalation of respirable crystalline silica dust may cause lung fibrosis, commonly referred to as silicosis. Principal symptoms of silicosis are cough and breathlessness. Occupational exposure to respirable crystalline silica dust should be monitored and controlled.

2.2. Label elements
   - Labelling according to Regulation (EC) No. 1272/2008 [CLP]
     - Hazard pictograms (CLP):
       - Signal word (CLP): Warning
       - Hazard statements (CLP): H315 - Causes skin irritation
       - H319 - Causes serious eye irritation.
       - Precautionary statements (CLP): P260 - Do not breathe dust
       - P280 - Wear eye protection, respiratory protection, protective gloves
       - P285 - In case of inadequate ventilation wear respiratory protection.
       - P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
       - P332 - If skin irritation occurs: Get medical advice/attention
       - P337+P313 - If eye irritation persists: Get medical advice/attention
       - P501 – Dispose of Contents/Containers in accordance with local regulations.

2.3. Other hazards
   - This product is an inorganic substance and does not meet the criteria for PBT or vPvB in accordance with Annex XIII of REACH

SECTION 3: Composition/information on ingredients

3.1. Substance
   - Not applicable

3.2. Mixture
   - Name: Quartz
     - (CAS No) 14808-60-7
     - (EC no) 238-878-4
     - %: 1 – 2%
     - Classification according to Directive 67/548/EEC: Not Classified
Section 4: First aid measures

4.1. Description of first aid measures
First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation: Remove person to fresh air and keep comfortable for breathing. Allow victim to breathe fresh air. Allow the victim to rest.
First-aid measures after skin contact: Wash with plenty of soap and water.
First-aid measures after eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Rinse eyes with water as a precaution.
First-aid measures after ingestion: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Call a poison centre or a doctor if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries after inhalation: Danger of damage to health by prolonged exposure through inhalation.
Symptoms/injuries after skin contact: Causes skin irritation.
Symptoms/injuries after eye contact: Causes eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

Section 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: Use extinguishing media appropriate for surrounding fire.
Unsuitable extinguishing media: No unsuitable extinguishing media known.

5.2. Special hazards arising from the substance or mixture
Fire hazard: Not flammable.
Explosion hazard: None.
Hazardous decomposition products in case of fire: None.

5.3. Advice for firefighters
Firefighting instructions: Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.
Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection. Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

Section 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
6.1.1. For non-emergency personnel
Emergency procedures: Do not breathe dust. Avoid airborne dust generation, wear personal protective equipment in compliance with national legislation.

6.1.2. For emergency responders
Protective equipment: 
Methods for cleaning up: 
Other information: Dispose of materials or solid residues at an authorized site.

6.2. Environmental precautions
Avoid release to the environment. Prevent entry to sewers and public waters.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up: Avoid dry sweeping and use water spraying or vacuum cleaning systems to prevent airborne dust generation. Wear personal protective equipment in compliance with national legislation.

6.4. Reference to other sections
See Heading 8. Exposure controls and personal protection. For further information refer to section 13.

Section 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling: Ensure good ventilation of the work station. Wear personal protective equipment. Do not handle until all safety precautions have been read and understood. Avoid raising dust. Avoid contact with skin and eyes. Do not breathe dust.
Hygiene measures: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store this product in a dry location where it can be protected from the elements.
Incompatible products: Strong bases. Strong acids.
Incompatible materials: Strong acids, bases.

7.3. Specific end use(s)
If you require advice on specific uses, please contact your supplier or check the Good Practice Guide referred to in section 16.
SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Note (1): Germany has no OEL for quartz. Employers are obliged to minimize exposure as much as possible, and to follow certain protective measures.

8.2. Exposure controls

Appropriate engineering controls : Ensure good ventilation of the work station.

Personal protective equipment : Pictogram(s) indicating the obligation of wearing personal protective equipment (PPE).

Hand protection : Wear protective gloves

Eye protection : Chemical goggles or safety glasses.

Skin and body protection : Wear suitable protective clothing

Respiratory protection : Wear appropriate mask

Environmental exposure controls : Avoid release to the environment.

Other information : Do not eat, drink or smoke during use. Avoid Generation of dust when cutting / grinding installed product.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state : Solid

Appearance : Granular mixture.

Colour : Grey.

Odour : Earthy Odor.

Odour threshold : Not applicable

pH : No data available

Relative evaporation rate (butylacetate=1) : Not applicable

Relative evaporation rate (ether=1) : Not applicable

Melting point : > 1650 °C

Freezing point : Not applicable

Boiling point : Not applicable

Flash point : Not applicable

Critical temperature : Not applicable

Auto-ignition temperature : Not applicable

Decomposition temperature : No data available

Flammability (solid, gas) : None

Non flammable

Vapour pressure : Not Applicable

Vapour pressure at 50 °C : Not Applicable

Critical pressure : Not applicable

Relative vapour density at 20 °C : No data available

Relative density : No data available

Solubility : Water: Slight

Log Pow : No data available

Viscosity, kinematic : Not applicable

Viscosity, dynamic : Not Applicable

Explosive properties : No data available

Oxidising properties : No data available

Explosive limits : Not applicable
9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Hydraulic setting.

10.2. Chemical stability
Not established.

10.3. Possibility of hazardous reactions
Not established.

10.4. Conditions to avoid
Avoid dust formation.

10.5. Incompatible materials
Strong acids. Strong bases.

10.6. Hazardous decomposition products
None.

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity: Not classified (Based on available data, the classification criteria are not met)
Skin corrosion/irritation: Not classified (Based on available data, the classification criteria are not met)
Serious eye damage/irritation: Not classified (Based on available data, the classification criteria are not met)
Respiratory or skin sensitisation: Not classified (Based on available data, the classification criteria are not met)
Germ cell mutagenicity: Not classified (Based on available data, the classification criteria are not met)
Carcinogenicity: Not classified (Based on available data, the classification criteria are not met)
Reproductive toxicity: Not classified (Based on available data, the classification criteria are not met)
Specific target organ toxicity (single exposure): Not classified (Based on available data, the classification criteria are not met)
Specific target organ toxicity (repeated exposure): Not classified (Based on available data, the classification criteria are not met)
Aspiration hazard: Not classified (Based on available data, the classification criteria are not met)
Potential adverse human health effects and symptoms: Not classified (Based on available data, the classification criteria are not met)

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general: The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.

12.2. Persistence and degradability
R-MAX C (Mixture)
Persistence and degradability: Not established.

Quartz (14808-60-7)
Persistence and degradability: Biodegradability: not applicable.
Biochemical oxygen demand (BOD): Not applicable
Chemical oxygen demand (COD): Not applicable
ThOD: Not applicable
BOD (% of ThOD): Not applicable

12.3. Bioaccumulative potential
R-MAX C (Mixture)
Bioaccumulative potential: Not established.

Quartz (14808-60-7)
Log Pow: Not applicable
Bioaccumulative potential: No bioaccumulation data available.

12.4. Mobility in soil
No additional information available

12.5. Results of PBT and vPvB assessment
No additional information available

12.6. Other adverse effects
Additional information: Avoid release to the environment

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations.
Ecology - waste materials: Avoid release to the environment.
### SECTION 14: Transport information

In accordance with ADR / RID / IMDG / IATA / ADN

#### 14.1. UN number

Not regulated for transport

#### 14.2. UN proper shipping name

#### 14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

- Contains no substances with Annex XVII restrictions
- R-MAX C is not on the REACH Candidate List
- Contains no substance on the REACH candidate list
- Contains no REACH Annex XIV substances

15.1.2. National regulations

- No additional information available

15.2. Chemical safety assessment

- No chemical safety assessment has been carried out
SECTION 16: Other information

Other information:

This product is a proprietary mixture of unique ingredients & is supplied in a premixed dry condition. Avoid generation of airborne dust when handling. Dust generated by grinding / cutting installed product should be treated as classified STOT RE 2. This MSDS is prepared to alert Customers and other users to the various components of the product and their relative quantity and toxicity in the product as provided. The user must review his/her own circumstances and then determine what is required to establish a safe working environment.

Insofar as materials not manufactured or supplied by Resco Products that are used in conjunction with, or instead of Resco Products materials, it is the responsibility of the customer himself to obtain, from the manufacturer or supplier, all technical data and other properties relating to these and other materials and to obtain all necessary information relating to them. No liability can be accepted in respect of the use of Resco Products materials in conjunction with materials from another supplier.

Workers must be informed of the presence of crystalline silica and trained in the proper use and handling of this product as required under applicable regulations.

Social Dialogue on Respirable Crystalline Silica

A multi-sectoral social dialogue agreement on Workers Health Protection through the Good Handling and Use of Crystalline Silica and Products Containing it was signed on 25 April 2006. This autonomous agreement, which received the European Commission’s financial support, is based on a Good Practices Guide. The requirements of the Agreement came into force on 25 October 2006. The Agreement was published in the Official Journal of the European Union (2006/C 279/02). The text of the Agreement and its annexes, including the Good Practices Guide, are available from http://www.nepsi.eu and provide useful information and guidance for the handling of products containing respirable crystalline silica. Literature references are available on request from EUROSIIL, the European Association of Industrial Silica Producers.

Prolonged and/or massive exposure to respirable crystalline silica containing dust may cause silicosis, a nodular pulmonary fibrosis caused by deposition in the lungs of fine respirable particles of crystalline silica.

In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans (human carcinogen category 1). However it pointed out that not all industrial circumstances, nor all crystalline silica types, were to be incriminated. (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.)

SDS EU (REACH Annex II)

Although reasonable care has been taken in the preparation of the information contained herein, Resco extends no warranties, makes no representation and assumes no responsibility as to the accuracy or suitability of such information for application to purchaser's intended purposes or for consequences of its use.
