**Product Data**

**Brand Name:** KRICON® 32

**Description:** KRICON® 32 is designed for service temperatures up to 3200°F. It is a high alumina, low iron castable with excellent hot modulus of rupture strengths.

Physical properties shown are average values of samples taken under controlled conditions

ASTM test methods used where applicable

**Maximum Service Temperature:** 3200°F (1760°C)

**Typical Water Required for Mixing (by weight):**

Vibration Casting ............... 4.5 to 5.5%
