

# Unicrete 50 Flowz

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS 2024)  
Issue date: 5/1/2015 Revision date: 10/6/2026 Supersedes: 11/20/2024

### SECTION 1 Identification

#### 1.1. Product identifier

Product form : Mixture  
Product name : Unicrete 50 Flowz  
CAS-No. : Mixture  
Product code : 3132

#### 1.2. Other means of identification

Other means of identification : Alumina-Silicate Cement Bonded Castable

#### 1.3. Recommended use of the chemical and restrictions on use

Use of the substance/mixture : Refractory  
Recommended use : Industrial use

#### 1.4. Supplier's details

RHI Magnesita  
425 South Salem Church Road  
York, PA, 17408  
United States  
T 717-792-3611  
[Resco.SDS.TDS@rhimagnesita.com](mailto:Resco.SDS.TDS@rhimagnesita.com) - [WWW.RescoProducts.com](http://WWW.RescoProducts.com)

#### 1.5. Emergency phone number

Emergency number : EMERGENCY ONLY (CHEMTREC) USA & Canada 1-800-424-9300  
Outside USA & Canada +1 703-741-5970

### SECTION 2 Hazard Identification

#### 2.1. Classification of the substance or mixture

**GHS US classification**  
Skin corrosion/irritation, Category 2 H315 Causes skin irritation.  
Serious eye damage/eye irritation, Category 2B H320 Causes eye irritation.  
Carcinogenicity, Category 1A H350 May cause cancer (Inhalation).  
Full text of H statements : see section 16

#### 2.2. Label elements

##### GHS US labeling

Hazard pictograms (GHS US) :

Signal word (GHS US) : Danger

Hazard statements (GHS US) : H315 - Causes skin irritation  
H320 - Causes eye irritation  
H350 - May cause cancer (Inhalation).

Precautionary statements (GHS US) : P280 - Wear eye protection, Dust respirator, protective gloves.  
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P332+P313 - If skin irritation occurs: Get medical advice or attention.  
P337+P313 - If eye irritation persists: Get medical advice or attention.  
P260 - Do not breathe dust.

#### 2.3. Hazards associated with known or reasonably anticipated uses

No additional information available

#### 2.4. Hazards not otherwise classified

No additional information available

#### 2.5. Unknown acute toxicity

No additional information available

### SECTION 3 Composition/information on ingredients

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

| Name                         | Product identifier  | %       | GHS US classification |
|------------------------------|---------------------|---------|-----------------------|
| cristobalite                 | CAS-No.: 14464-46-1 | 10 – 30 | Carc. 1A, H350        |
| aluminium oxide, non-fibrous | CAS-No.: 1344-28-1  | 10 – 30 | Not classified        |

# Unicrete 50 Flowz

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS 2024)

| Name                     | Product identifier  | %     | GHS US classification                      |
|--------------------------|---------------------|-------|--------------------------------------------|
| Calcium Aluminate Cement | CAS-No.: 65997-16-2 | 1 – 5 | Skin Irrit. 2, H315<br>Eye Irrit. 2B, H320 |
| quartz                   | CAS-No.: 14808-60-7 | 1 – 5 | Carc. 1A, H350                             |

Full text of hazard classes and H-statements : see section 16

### SECTION 4 First aid measures

#### 4.1. Description of necessary first-aid measures

|                                       |                                                                                                                                    |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general            | : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).  |
| First-aid measures after inhalation   | : Allow affected person to breathe fresh air. Allow the victim to rest.                                                            |
| First-aid measures after skin contact | : Gently wash with plenty of soap and water.                                                                                       |
| First-aid measures after eye contact  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| First-aid measures after ingestion    | : Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.                                                         |

#### 4.2. Most important symptoms/effects, acute and delayed

|                                                     |                                                                                                                |
|-----------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Potential Adverse human health effects and symptoms | : Danger of serious damage to health by prolonged exposure through inhalation.                                 |
| Symptoms/effects after inhalation                   | : Danger of serious damage to health by prolonged exposure through inhalation. May cause cancer by inhalation. |
| Symptoms/effects after skin contact                 | : Causes skin irritation.                                                                                      |
| Symptoms/effects after eye contact                  | : Causes eye irritation.                                                                                       |

#### 4.3. Indication of immediate medical attention and special treatment needed, if necessary

No additional information available

### SECTION 5: Fire-fighting measures

#### 5.1. Suitable (and unsuitable) extinguishing media

|                                |                                                             |
|--------------------------------|-------------------------------------------------------------|
| Suitable extinguishing media   | : Use extinguishing media appropriate for surrounding fire. |
| Unsuitable extinguishing media | : In case of fire, all extinguishing media allowed.         |

#### 5.2. Specific hazards arising from the chemical

|             |                  |
|-------------|------------------|
| Fire hazard | : Not flammable. |
|-------------|------------------|

#### 5.3. Special protective equipment and precautions for fire-fighters

|                                |                                                                                                             |
|--------------------------------|-------------------------------------------------------------------------------------------------------------|
| Firefighting instructions      | : Fight fire with normal precautions from a reasonable distance. Prevent entry to sewers and public waters. |
| Protection during firefighting | : Do not enter fire area without proper protective equipment, including respiratory protection.             |

### SECTION 6 Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

##### For non-emergency personnel

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Emergency procedures | : Do not breathe dust. Avoid contact with skin and eyes. |
|----------------------|----------------------------------------------------------|

##### For emergency responders

|                           |                                                                      |
|---------------------------|----------------------------------------------------------------------|
| Protective equipment      | : Equip cleanup crew with proper protection.                         |
| Emergency procedures      | : Ventilate area. On land, sweep or shovel into suitable containers. |
| Environmental precautions | : Prevent entry to sewers and public waters.                         |

#### 6.2. Methods and materials for containment and cleaning up

|                         |                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------|
| Methods for cleaning up | : On land, sweep or shovel into suitable containers. Minimize generation of dust. |
|-------------------------|-----------------------------------------------------------------------------------|

See Heading 8. Exposure controls and personal protection.

### SECTION 7 Handling and storage

#### 7.1. Precautions for safe handling

|                               |                                                                                                                                                        |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for safe handling | : Do not handle until all safety precautions have been read and understood. Avoid raising dust. Avoid contact with skin and eyes. Do not breathe dust. |
| Hygiene measures              | : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.                                |

#### 7.2. Conditions for safe storage, including incompatibilities

|                       |                                                                                     |
|-----------------------|-------------------------------------------------------------------------------------|
| Storage conditions    | : Store this product in a dry location where it can be protected from the elements. |
| Incompatible products | : Strong bases. Strong acids.                                                       |

### SECTION 8 Exposure controls/personal protection

#### 8.1. Control parameters

# Unicrete 50 Flowz

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS 2024)

|                                                  |                                                                                                                                  |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| <b>cristobalite (14464-46-1)</b>                 |                                                                                                                                  |
| <b>USA - ACGIH® - Threshold Limit Values</b>     |                                                                                                                                  |
| ACGIH® TLV® TWA                                  | 0.025 mg/m³ respirable dust                                                                                                      |
| <b>USA - OSHA - Occupational Exposure Limits</b> |                                                                                                                                  |
| OSHA PEL TWA                                     | 0.05 mg/m³ respirable dust                                                                                                       |
| <b>aluminium oxide, non-fibrous (1344-28-1)</b>  |                                                                                                                                  |
| <b>USA - ACGIH® - Threshold Limit Values</b>     |                                                                                                                                  |
| ACGIH® TLV® TWA                                  | 1 mg/m³ respirable dust                                                                                                          |
| <b>quartz (14808-60-7)</b>                       |                                                                                                                                  |

| ACGIH® TLV® TWA                                  | 0.025 mg/m³ (Silica-Crystalline Quartz; USA; Time-weighted average exposure limit 8 h; TLV - Adopted Value; Respirable fraction) |
| <b>USA - OSHA - Occupational Exposure Limits</b> |                                                                                                                                  |
| Local name                                       | Silica, crystalline quartz, respirable dust                                                                                      |
| OSHA PEL TWA                                     | 0.05 mg/m³ respirable dust                                                                                                       |
| Remark (OSHA)                                    | (3) See Table Z-3.                                                                                                               |

### 8.2. Appropriate engineering controls

Appropriate engineering controls : Provide adequate ventilation to minimize dust concentrations.

### 8.3. Individual protection measures, such as personal protective equipment

#### Personal protective equipment:

Avoid all unnecessary exposure.

#### Hand protection:

Wear protective gloves.

#### Eye protection:

Chemical goggles or safety glasses

#### Skin and body protection:

Wear suitable protective clothing

#### Respiratory protection:

Wear appropriate mask

#### Other information:

Do not eat, drink or smoke during use.

## SECTION 9 Physical and chemical properties

### 9.1. Basic physical and chemical properties

|                                                 |                     |
|-------------------------------------------------|---------------------|
| Physical state                                  | : Solid             |
| Appearance                                      | : Granular mixture. |
| Color                                           | : Gray              |
| Odor                                            | : None              |
| Odor threshold                                  | : No data available |
| pH                                              | : ≈ 10.5            |
| pH solution concentration                       | : 10 %              |
| Melting point                                   | : > 3000 °F         |
| Freezing point                                  | : No data available |
| Boiling point                                   | : No data available |
| Flash point                                     | : No data available |
| Flammability (solid, gas)                       | : Not flammable.    |
| Vapor pressure                                  | : No data available |
| Relative vapor density at 20°C                  | : No data available |
| Relative density                                | : ≈ 2.4             |
| Solubility                                      | : Slightly soluble. |
| Partition coefficient n-octanol/water (Log Pow) | : No data available |
| Auto-ignition temperature                       | : No data available |
| Decomposition temperature                       | : No data available |
| Viscosity, kinematic                            | : No data available |
| Explosion limits                                | : No data available |
| Particle characteristics                        | : No data available |

### 9.2. Data relevant with regard to physical hazard classes (supplemental)

No additional information available

# Unicrete 50 Flowz

## Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS 2024)

### SECTION 10 Stability and reactivity

#### 10.1. Reactivity

Hydraulic setting.

#### 10.2. Chemical stability

Stable under normal conditions of use.

#### 10.3. Possibility of hazardous reactions

Not established.

#### 10.4. Conditions to avoid

Avoid dust formation.

#### 10.5. Incompatible materials

Strong acids. Strong bases.

#### 10.6. Hazardous decomposition products

No additional information available

### SECTION 11 Toxicological information

#### 11.1. Information on toxicological effects

Acute toxicity (oral) : Not classified  
Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

#### aluminium oxide, non-fibrous (1344-28-1)

|                       |                                                                                                                                  |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------|
| LD50 oral rat         | > 15900 mg/kg body weight (Equivalent or similar to OECD 401, Rat, Male / female, Experimental value, Oral, 14 day(s))           |
| LC50 Inhalation - Rat | > 2.3 mg/l air (Equivalent or similar to OECD 403, 4 h, Rat, Male / female, Experimental value, Inhalation (aerosol), 14 day(s)) |

Skin corrosion/irritation : Causes skin irritation.  
pH:  $\approx$  10.5

#### Calcium Aluminate Cement (65997-16-2)

pH  $\leq$  13

#### cristobalite (14464-46-1)

pH 6 – 7

#### aluminium oxide, non-fibrous (1344-28-1)

pH 9 – 10.5 (aqueous suspension, 33 %)

#### quartz (14808-60-7)

pH 6 – 7

Serious eye damage/irritation : Causes eye irritation.  
pH:  $\approx$  10.5

#### Calcium Aluminate Cement (65997-16-2)

pH  $\leq$  13

#### cristobalite (14464-46-1)

pH 6 – 7

#### aluminium oxide, non-fibrous (1344-28-1)

pH 9 – 10.5 (aqueous suspension, 33 %)

#### quartz (14808-60-7)

pH 6 – 7

Respiratory or skin sensitization : Not classified  
Germ cell mutagenicity : Not classified  
Carcinogenicity : May cause cancer (Inhalation).

# Unicrete 50 Flowz

## Safety Data Sheet
